Description: Sloughing at Mile 7.59 of the San Joaquin River

Site ID No:473

Site Designation:LMA-300 Repair Type: Erosion Rating:Area of Concern Field Date:7/20/2017

Notes: Concrete rubble was installed here during the storms after noticing cracks and sloughing. It has rebar sticking out and needs to be replaced with clean rip rap. Responibility is grey here because TID maintains channel and placed concrete during storm.
